THE TARIPF.

If there are now left on earth any protectionists according to the old ges-pel of protection for protection's sake, to them we speak. The Democrats have no wish to injure themselves. Those of us who were unfortunate enough to be alive in 1892-94 may even be inclined to bet that again performance will lag be-hind promise. The fact is that the only "constitutional tariff" is exactly the kind of tariff that cannot be made. A reasonable protective tariff is what may be expected, and the Democrats are protectionists largely, some of them without knowing it or acknowledging it. Nature has voted this year in favor of American prosperity. The Democrats souldn't interfere with it very much if they wanted to; and they very much want not to.-New York Sun.
